

COMMENCEMENT 2024

Wednesday, May fifteenth, Four o'clock in the afternoon

PRESENTATION OF DEGREE CANDIDATES

Radio City Music Hall, New York City

COMMENCEMENT 2024

Wednesday, May fifteenth, Four o'clock in the afternoon

PRESENTATION OF DEGREE CANDIDATES

Radio City Music Hall, New York City

2024 MEDALIST AND SPEAKER

RUTH J. SIMMONS

Ruth J. Simmons, distinguished scholar, author, and president emerita of Smith College, Brown University, and Prairie View A&M University, will receive the Barnard Medal of Distinction and deliver the College's 2024 Commencement address.

The daughter of sharecroppers, Dr. Simmons grew up in segregated Texas as the youngest of 12 children. She went on to earn degrees in Romance languages and literature from Dillard and Harvard universities, eventually becoming the first African American president of an Ivy League institution, a leader in mobilizing research on the institutional legacy of slavery, and an advocate for opportunity in higher education. Dr. Simmons details these experiences in her bestselling memoir, *Up Home: A Young Girl's Journey*.

Dr. Simmons' transformative vision and leadership led to a number of new academic initiatives at Smith, including the first engineering program at an American women's college. In her time as the first woman to serve as president of Prairie View, Dr. Simmons oversaw the creation of an African American studies initiative, the launch of grant programs to support students with financial hardship, and the university's promotion to R-2 status.

During her 11 years as president of Brown University, Dr. Simmons appointed a committee to investigate Brown's historical ties to the transatlantic slave trade, which inspired similar initiatives at institutions across the world. She also oversaw major investments in Brown's faculty and research capacities, in financial support for undergraduate and graduate students, and in campus-wide diversity efforts.

Dr. Simmons is the recipient of numerous honors, including the National Endowment for the Humanities Jefferson Lecture, 2002 Fulbright Lifetime Achievement Medal, and the Centennial Medal from Harvard University. She has received over 40 honorary degrees from universities around the world. She received Brown University's highest faculty honor, the Susan Colver Rosenberger Medal, in 2011 and was honored by the Prairie View faculty in 2022.

CLASS OF 2024

Students' names will be read alphabetically by department; students with double majors will be read with the first department listed. (Information as of May 10, 2024)

“COLLEGE ON THE HILLTOP”

There's a college on a hilltop
That's very dear to me,
And a certain group of students
With ties of comrad'rie.
So we'll sing to dear old Barnard,
And loyal be and true,
As we show to coming classes
How we love the white and blue.

When the day has come for parting
And college days are o'er,
There will always be a fondness
For the good old days of yore.
And we'll sing to dear old Barnard
As in memory we see
The college on the hilltop
Where our classmates used to be.

— *May Appleton Parker, 1904*

BARNARD COLLEGE

Since its founding in 1889, Barnard has been a distinguished leader in higher education, offering a rigorous liberal arts foundation to young women whose curiosity, drive, and exuberance set them apart. Ours is a diverse intellectual community in a unique learning environment that provides the best of all worlds: small, intimate classes in a collaborative liberal arts setting dedicated to the advancement of women with the vast resources of Columbia University just steps away — in the heart of vibrant and electric New York City.

On our leafy four-acre campus on the Upper West Side of Manhattan, our world-class faculty of teacher-scholars educates over 2,900 inspired and intrepid undergraduate women — women who, as a matter of course, have gone on to achieve great things. Throughout our history, Barnard graduates have made their mark as leaders in the arts, business, government, and science and as activists for causes too numerous to name.

One hundred and thirty-five years ago, Barnard was the first college in New York City — and one of the few in the world — where women could receive the same liberal arts education available to men. Today, Barnard is one of the most selective academic institutions in the United States and remains devoted to empowering extraordinary women. With the unparalleled opportunities of our cosmopolitan setting, the strength of our academic programs, and our ongoing commitment to diversity, we continue to do what we have done from the beginning with a keen eye to the future.

Barnard women change the world and the way we think about it.

BARNARD
