MYTHS VERSUS REALITY

**Myth**

MYTH: Basically all Barnard students drink alcohol.

MYTH: Everyone has tried marijuana at least once.

MYTH: Taking unprescribed "study drugs" like Adderall is common at Barnard.

**Reality**

REALITY: 16.4% of Barnard students report having never used alcohol.

REALITY: 52.3% of Barnard students report having NEVER used marijuana.

REALITY: 93% of Barnard students have NOT taken unprescribed stimulants in the last 12 months.
