Hello Faculty,

Members of the Institutional Funding team have been attending workshops and conferences this fall to gather information, ideas, and training to assist all of you in your grantmaking efforts. Both the Featured Funder and the Sage Advice columns cover some of what we gathered. You can also find some these resources and more on the Items of Interest page in the External Grant Opportunities section of the Barnard website. You are always welcome to ring or email us with questions, including how to use resources or materials.

Please be aware the next deadline for Internal Research Grants and for Inclusive Pedagogy Fund Proposals is November 21. January 31 is the deadline for the next round for Internal Research Grants and for the Tow Award for Innovative and Outstanding Pedagogy Proposals. For more information, visit the Internal Grants & Support page.

If you would like assistance in finding grants for your upcoming research, please contact Kari Steeves. As always, feel free to send any comments or suggestions directly to us here.

Best,
Kari Steeves
212-870-2527
Earlier this week, this newsletter writer “attended” the NSF Grants Conference, albeit virtually. Here’s a bird’s eye overview of the fifth most well-funded US federal agency.

The NSF awards about 12,000 new awards per year from an annual budget of $7.5 billion (FY 2016). 91% of its awards go to research conducted in American colleges and universities. Those awards support about 200,000 people at universities, laboratories and field sites all over the United States and abroad. The website says “NSF-funded researchers have won some 223 Nobel Prizes,” but the presenter pointed out that 8 of the spring’s Nobel Prize winners were NSF-funded, totaling 231.

NSF is led by a Director, currently France Córdova, a Deputy Director, currently unfilled, and a 24-member National Science Board, all appointed by the President. It is divided into the following seven directorates, each headed by an assistant director:

- Biological Sciences
- Engineering
- Social, Behavioral and Economic Sciences
- Computer and Information Science and Engineering
- Geosciences
- Mathematical and Physical Sciences
- Education and Human Resources

To get an idea of the magnitude of funding opportunities, browse the NSF’s A-Z listing. It supports the NSF’s claim as the agency that “funds the widest range of projects.”

Beyond the basic research proposal, the NSF also provides funding under the following mechanisms:

- **RAPID**: Rapid Response Research provides emergency funding for special circumstances. For example, NSF issued a Dear Colleague letter on September 1 for projects stimulated by Hurricane Harvey and at least three grants were funded within the month.
- **EAGER**: “Early-Concept Grants for Exploratory Research” is for work considered “high risk, high payoff.”
- **RAISE**: Research Advanced by Interdisciplinary Science and Engineering proposals reside at the intersection or combination of disciplines.
- **GOALI**: “Grant Opportunities for Academic Liaison and Industry” research projects that utilize industry professional expertise.
- **Ideas Lab** funds high risk/high impact, creative and innovative proposals that have the potential to transform paradigms.
- **FASED**: Facilitation Awards for Scientists and engineers with Disabilities funds equipment that allows people with uncommon needs to conduct research.
- **Conferences**: NSF supports conferences to bring experts together in special areas.
- **Equipment**: for specialized equipment.
- **Travel**: for participation in domestic or international meetings.
- **Center**: These provide for work beyond the scope and scale of individual investigations.
- **Fellowships**: for graduate and post-doctorate research.

The conference featured a plethora of more detailed information, much of which can be found here, (PowerPoints and videos). In the meantime, I’ll summarize the speakers’ most frequent and perhaps most pressing point in five words: “Talk to your program officer.”
Sage Advice for Competitive Proposals

Our fearless Director of Sponsored Research attended the CLASP (Colleges of Liberal Arts Sponsored Programs) conference this month and brought back a wealth of tips and strategies for applying for grants, especially National Institutes of Health grants. If you missed our primer on the NIH a few editions back, check out the October 10 issue here.

The NIH has posted the Strategic Plans and Visions of 26 Institutes and Centers here. Other tabs on that page take you to NIH-wide plans, topical plans, and interagency plans. The overarching NIH-wide Strategic Plan for FYs 2016-2020 can be found here.

Find out here about NIH Common Fund programs that “address emerging scientific opportunities and pressing challenges in biomedical research that no single NIH Institute or Center (IC) can address on its own, but are of high priority for the NIH as a whole.”

To find NIH Study Sections and information about membership rosters and topics, click here. Study sections “review basic and clinical research applications dealing with a particular field of study.”

The National Institute of Allergy and Infectious Diseases (NIAID), one of the NIH’s 27 institutes and centers, has provided this handy batch of “Sample Forms, Plans, Letters, Emails, and More” here.

On the Items of Interest Barnard website page we have posted several documents collected at the conference, including several sample R01 applications—three with really helpful annotations from NIH staff—and a sample R15 application and a PowerPoint presentation about the American Philosophical Society. In fact, that page has lots of resources to help you secure funding for your research.

Lastly, here’s a link to NIH’s RePORTER, which allows you to search for funding information from several research funders, including NIH, USDA, NSF, NASA, and EPA. Even more exciting, or at least helpful, here’s a video about how to use RePORTER effectively.

Fast Approaching Deadlines — General Interest

December 1 – American Philosophical Society Franklin Research Grants
December 1 – Rockefeller Foundation Bellagio Center Academic Residency
December 6 – National Endowment for the Humanities Collaborative Research Grants
December 12 – Columbia School of Journalism The Anthony Lukas Prize Project Awards
December 15 – Newberry Library Short-Term Fellowships
December 31 – Rutgers University, The Louis O. Kelso Fellowships
January 15 – New York State Archives Larry J. Hackman Research Residency Program
January 17 – Kauffman Foundation Faculty Fellowship in Entrepreneurship Research
January 18 – National Science Foundation Science of Learning
Grants and Fellowship Opportunities

**GENERAL INTEREST AND CROSS DISCIPLINARY**

**National Science Foundation, Science of Learning**
**Deadline:** January 17, 2018
“The Science of Learning program supports potentially transformative basic research to advance the science of learning. The goals of the SL Program are to develop basic theoretical insights and fundamental knowledge about learning principles, processes and constraints. Projects that are integrative and/or interdisciplinary may be especially valuable in moving basic understanding of learning forward but research with a single discipline or methodology is also appropriate if it addresses basic scientific questions in learning. The possibility of developing connections between proposed research and specific scientific, technological, educational, and workforce challenges will be considered as valuable broader impacts, but are not necessarily central to the intellectual merit of proposed research. The program will support research addressing learning in a wide range of domains at one or more levels of analysis including: molecular/cellular mechanisms; brain systems; cognitive/affective, and behavioral processes; and social/cultural influences. The program supports a variety of methods including: experiments, field studies, surveys, secondary-data analyses, and modeling.”

**Urban Communication Foundation James W. Carey Urban Communication Grant**
**Deadline:** January 31, 2018
“This grant supports communication research that enhances urban social interaction and civic engagement in an age of global communication. It encourages applied research on the role of human communication in urban environments at a time when media technologies alter the parameters of community of all kinds.... With an award of up to $2,500, this grant facilitates research in progress or in the planning stages. It gives priority to projects that feature innovation and creative approaches to studying the central role of human communication in the transformation of urban cultures and communities. Proposals from developing nations are encouraged.”

**ARTS AND HUMANITIES**

**American Philosophical Society Lewis and Clark Fund for Exploration and Field Research**
**Deadline:** January 30, 2018
“The Lewis and Clark Fund encourages exploratory field studies for the collection of specimens and data and to provide the imaginative stimulus that accompanies direct observation. Applications are invited from disciplines with a large dependence on field studies, such as archeology, anthropology, biology, ecology, geography, geology, linguistics, paleontology, and population genetics, but grants will not be restricted to these fields.”

**National Endowment for the Humanities Public Scholars Program**
**Deadline:** February 7, 2018
“The Public Scholar Program supports well-researched books in the humanities intended to reach a broad readership. Although humanities scholarship can be specialized, the humanities also strive to engage broad audiences in exploring subjects of general interest. They seek to deepen our understanding of the human condition as well as current conditions and contemporary problems. The Public Scholar Program aims to encourage scholarship that will be of broad interest and have lasting impact. Such scholarship might present a narrative history, tell the stories of important individuals, analyze significant texts, provide a synthesis of ideas, revive interest in a neglected subject, or examine the latest thinking on a topic. Books supported by this program must be grounded in humanities research and scholarship. They must address significant humanities themes likely to be of broad interest and must be written in a readily accessible style. Making use of primary...
Grants and Fellowship Opportunities (cont’d)

and/or secondary sources, they should open up important and appealing subjects for a wide audience. The challenge is to make sense of a significant topic in a way that will appeal to general readers. <<more>>

National Endowment for the Humanities Summer Seminars and Institutes
Deadline: January 31, 2018
“NEH Summer Seminars and Institutes grants support professional development programs in the humanities for school teachers and for college and university faculty. Seminars and institutes may be as short as one week or as long as four weeks. NEH Summer Seminars and Institutes
• provide models of excellent teaching;
• provide models of excellent scholarship;
• broaden and deepen understanding of the humanities;
• focus on the study and teaching of significant topics, texts, and other sources;
• contribute to the intellectual vitality of participants; and
• build communities of inquiry.
An NEH Summer Seminar or Institute may be hosted by a college, university, learned society, center for advanced study, library or other repository, cultural or professional organization, or school or school system. The host site must be suitable for the project, providing facilities for collegial interaction and scholarship. These programs are designed for a national audience of participants.” <<more>>

New York Foundation for the Arts Artists’ Fellowships
Deadline: January 24, 2018
“NYSCA/NYFA Artist Fellowships, awarded in fifteen different disciplines over a three-year period, are $7,000 cash awards made to individual originating artists living and working in the state of New York for unrestricted use. These fellowships are not project grants but are intended to fund an artist’s vision or voice, regardless of the level of his or her artistic development.”

2018 NYSCA/NYFA Artist Fellowship Categories
• Fiction
• Folk/Traditional Arts
• Interdisciplinary Work
• Painting
• Video/Film
(Includes the Joanne Chen Fellowship awarded annually to a Taiwanese American artist resident in New York. The winner of this award will receive an unrestricted grant of $7,000.) <<more>>

Western Association of Women Historians Annual Awards and Prizes
Deadline: January 7, 2018
The Western Association of Women Historians offers 8 annual awards and prizes for articles and books published in the last year, unless otherwise stipulated. Those of relevance to faculty are:
“The Judith Lee Ridge Prize is an annual prize that recognizes the best article in the field of history published by a WAWH member... The article must have been published in one of the two years preceding the prize year.”
“The Frances Richardson Keller-Sierra Prize is an annual prize that recognizes the best monograph in the field of history published by a WAWH member.”
“The Barbara ”Penny” Kanner Award is an annual award given to honor a book, book chapter, article, or electronic media that has been verifiably published or posted in the two years prior to the award year and which illustrates the use of a specific set of primary sources (diaries, letters, interviews etc).”
“The Gita Chaudhuri Prize is an annual prize that recognizes the best monograph about the history of women in rural environments, from any era and any place in the world, published by a WAWH member... The book must have been published in one of the three years prior to the prize.”
“The Frances Richardson Keller-Sierra Prize is an annual $400 prize that recognizes the best monograph in the field of history published by a WAWH member.” <<more>>

Return to table of contents
**EDUCATION**

**Spencer Foundation Small Research Grants**

**Deadline**: February 1, 2018

“The Small Research Grants program is intended to support education research projects with budgets of $50,000 or less. In keeping with the Spencer Foundation’s mission, this program aims to fund academic work that will contribute to the improvement of education, broadly conceived. Historically, the work we have funded through these grants has spanned a range of topics and disciplines, including education, psychology, sociology, economics, history, and anthropology, and they employ a wide range of research methods.”  

**SOCIAL SCIENCE**

**Leakey Foundation Research Grants**

**Deadline**: January 10, 2018

“The Leakey Foundation exclusively funds research related specifically to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation. The majority of The Leakey Foundation’s Research Grants awarded to doctoral students are in the $3,000-$15,000 range. Larger grants given to senior scientists and post-doctoral students may be funded up to $25,000.”

**National Science Foundation Cultural Anthropology**

**Deadline**: December 15, 2017

“The primary objective of the Cultural Anthropology Program is to support basic scientific research on the causes, consequences, and complexities of human social and cultural variability. Anthropological research spans a wide gamut, and contemporary cultural anthropology is an arena in which diverse research traditions and methodologies are valid. Recognizing the breadth of the field’s contributions to science, the Cultural Anthropology Program welcomes proposals for empirically grounded, theoretically engaged, and methodologically sophisticated research in all sub-fields of cultural anthropology. Because the National Science Foundation’s mandate is to support basic research, the NSF Cultural Anthropology Program does not fund research that takes as its primary goal improved clinical practice or applied policy. Program research priorities include, but are not limited to, research that increases our understanding of:

- Socio-cultural drivers of critical anthropogenic processes such as deforestation, desertification, land cover change, urbanization, and poverty
- Resilience and robustness of socio-cultural systems
- Conflict, cooperation, and altruism
- Economy, culture, migration, and globalization
- Variability and change in kinship and family norms and practices
- Cultural and social contexts of health and disease
- Social regulation, governmentality, and violence
- Origins of complexity in socio-cultural systems
- Language and culture: orality and literacy, sociolinguistics, and cognition
- Human variation through empirically grounded ethnographic descriptions
- Mathematical and computational models of sociocultural systems such as social network analysis, agent-based models, and integration of agent-based models with geographic information systems (GIS).”

**LANGUAGE AND AREA STUDIES**

**National Endowment for the Arts Translation Projects**

**Deadline**: January 11, 2018

In FY 2018, the NEA will award 22 Literature Translation Fellowships of $12,500 or $25,000 each
for a total of $300,000. The full list of FY 2018 Literature Translation Fellowship recipients and their projects is available here.

Through its fellowships in literary translation, the NEA supports the new translation of fiction, creative nonfiction, poetry, and drama into English. Among this year’s projects are award-winning novels, short stories, poetry, and a play from 15 languages and five continents, including works from Japan, Madagascar, and India. In addition, most of the translated works are appearing for the first time in English and ten of them are by female authors.

Projects range from the translation and retranslation of classic works—such as Thiruvalluvar’s book of poetry, *Tirukkural*, written between 100 B.C.E. and 400 C.E., translated from Tamil by Thomas Hitoshi Pruiksma—to contemporary titles, such as the novel *Lalana*, written in French by Malagasy author Michele Rakotoson, one of the most successful authors in Madagascar, and translated by Allison M. Charette.

Additional projects include:

- Todd Fredson’s translation from French of the poetry collection *The future has an appointment with the dawn* by Ivory Coast writer Tanella Boni (b. 1954), one of the most prominent poets, novelists, essayists, and philosophers of francophone Africa—only a handful of her poems are available in English.
- Seth Michelson’s translation from Spanish and Mapuzungun of two poetry collections by Mapuche-Argentine poet Liliana Ancalao (b. 1961). The collection will comprise the first single-author volume of poetry by a female Mapuche poet from Argentina in English-language translation, and only the second ever such single-author collection by a female Mapuche poet.
- Ri J. Turner’s translation from Yiddish of selected humoresques by Joseph Tunkel (1881-1949). Tunkel—better known by his pen name Der Tunkeler—was one of the most prolific humorists of modern Yiddish literature, yet he has rarely been translated into English.

Since 1981, the NEA has awarded 455 fellowships to 404 translators, with translations representing 69 languages and 82 countries. The review criteria for these projects consist not only of the translators’ skill, but also the importance of a particular work of international literature to English-speaking audiences, including those authors and languages that are often underrepresented.

Information on how to apply for NEA Creative Writing Fellowships and Literature Fellowships for Translation Projects is available at arts.gov. The deadline for Creative Writing Fellowships in poetry is March 7, 2018. The deadline for translation projects has been extended and is January 11, 2018.

Visit the NEA’s Writers’ Corner to read excerpts by and features on past NEA Literature Fellows, including both Creative Writing and Translation Fellows. <<more>>

**European Institute at Columbia University**

**Deadline:** rolling

“The European Institute offers grants to members of the Columbia and Barnard faculties for collaborative research projects such as workshops and conferences. EI Faculty Research Grants support projects that address a topic on the scale of Europe as a whole, an issue of concern to the entire region, or that take a new approach to its relations with other world regions. Projects may be pursued at Columbia or under the auspices of Columbia’s Global Centers Paris and Istanbul and in cooperation with other Global Centers. Projects involving participants from European institutions are prioritized.” <<more>>
**STEM (Science, Technology, Engineering, and Mathematics)**

**Max Planck Institute for the History of Science**

**Deadline:** January 1 and June 1, 2018

The Max Planck Institute offers two visiting fellowships that might interest Barnard faculty:

**Visiting Postdoctoral Fellow**

Early career scholar who is ordinarily no more than five years past the granting of the doctorate and who is either externally financed or receives a Fellowship rather than a contract from the MPIWG.

**Visiting Scholar**

Established scholar as evidenced by significant publications and broad academic experience spending a fixed term as guests at the MPIWG for research purposes. These may be externally funded or receive a Research Fellowship from the MPIWG.

In conjunction with ongoing research (such as Working Groups), a small number of Visiting Scholars are invited to the MPIWG for stays ranging from several weeks to several months. In addition, scholars whose work is directly relevant to these research projects and who are supported by external funds may also apply to spend time working with one of the Institute’s research units.  

**Brain Research Foundation Fay/Frank Seed Grant Program**

**Deadline:** January 8, 2018

“Brain Research Foundation is inviting eligible US institutions to nominate one (1) faculty member to submit a Letter of Intent (LOI) for the Fay/Frank Seed Grant Program by January 8, 2018. To be eligible, the PI must be a full-time Assistant or Associate Professor working in the field of neuroscience.

Brain Research Foundation’s Fay/Frank Seed Grant Program was founded in 1981 with the goal of providing start-up money for new and innovative research projects that have the potential to become competitive for an NIH grant or other external funding sources.”

**The McKnight Foundation 2018 McKnight Scholar Awards**

**Deadline:** January 8, 2018

“The McKnight Endowment Fund for Neuroscience supports innovative research designed to bring science closer to the day when diseases of the brain can be accurately diagnosed, prevented, and treated. To this end, the McKnight Endowment Fund for Neuroscience invites applications for the 2018 McKnight Scholar Awards.

Background: These awards were established to encourage emerging neuroscientists to focus on disorders of learning and memory. Applicants for the McKnight Scholar Award must demonstrate interest in solving important problems in relevant areas of neuroscience, including the translation of basic research to clinical neuroscience. Awards are given to exceptional young scientists who hold the M.D. and/or Ph.D. degree and who are in the early stages of establishing an independent laboratory and research career. Traditionally, successful candidates have held faculty positions for at least one year.”

News Items

From the NSF

“Dear Colleagues:

We are pleased to announce that a revised version of the NSF Proposal & Award Policies & Procedures Guide (PAPPG), (NSF 18-1) has been issued.

A webinar to brief the community on the new PAPPG will be held on December 8 at 2 PM EST. Registration is now available at: https://nsfgrantsconferences.com/pappg-update-webinar/

The new PAPPG will be effective for proposals submitted, or due, on or after January 29, 2018. Significant changes include:

- Addition of a new eligibility subcategory on international branch campuses of U.S. Institutions of Higher Education;
- Revision of eligibility standards for foreign organizations;
- Implementation of the standard Collaborators and Other Affiliations (COA) template that has been in pilot phase since April;
- Increase in the Budget Justification page limitation from three pages to five pages; Restructuring of coverage on grantee notifications to and requests for approval from NSF, including referral to the Prior Approval Matrix available on the NSF website; and
- Numerous clarifications and other changes throughout the document.

You are encouraged to review the by-chapter summary of changes provided in the Introduction section of the PAPPG.

While this version of the PAPPG becomes effective on January 29, 2018, in the interim, the guidelines contained in the current PAPPG (NSF 17-1) continue to apply. We will ensure that the current version of the PAPPG remains on the NSF website, with a notation to proposers that specifies when the new PAPPG (including a link to the new Guide) will become effective.

If you have any questions regarding these changes, please contact the Policy Office at (703) 292-8243 or by e-mail policy@nsf.gov.”

From the NIH

“...with NIH’s implementation of the F-RPPR and I-RPPR, a new section, Section I – Outcomes, has been added. The Outcomes section will be made publicly available through the NIH RePORTER website. The objective is to provide the public with easily understood results for NIH-funded biomedical research, thus improving the transparency about the use of federal funds. NIH will only publish project outcomes after they’ve been reviewed and approved by NIH staff. If a project outcome is in biomedical expert-speak, shares proprietary information, or includes Personally Identifiable Information (PII), a grantee will be asked by NIH staff to submit revised project outcomes...”

“For the latest Guide Notice on Project Outcomes, please see NOT-OD-18-103. For an example of an acceptable Project Outcomes description, please see the Summary of R01HL066004. For more information on Interim and Final RPPR, please refer to NOT-OD-17-085 and NOT-OD-17-022.”

From Giorgio DiMauro, Barnard College Dean,
International and Global Strategy — Global Barnard Funding Opportunities

“The Weiss Fellowship for Visiting International Scholars: funding to support a visit by a distinguished international scholar to Barnard. The deadline for spring 2018 is December 1, 2017. Learn more at: https://barnard.edu/global/international_scholars/weiss/

Proposals are reviewed by the Faculty Committee on Internationalization in conjunction with the Dean for International and Global Strategy and the Provost.”

Please be in touch with Giorgio at gdimauro@barnard.edu or at 212-854-7430 with any questions.
Deadline Reminders

GENERAL INTEREST AND CROSS-DISCIPLINARY

(Please see page 2 for Fast Approaching deadlines through the first half of November)

December 1 – American Association of University Women American International Fellowships
December 1 – Rockefeller Foundation Bellagio Academic Writing Residency
December 6 – National Endowment for the Humanities Collaborative Research Grants
December 8 – Project Management Institute-Sponsored Research Program
December 11 – Princeton University Center for Human Values Faculty Grants
December 12 – Columbia School of Journalism The Anthony Lukas Prize Project Awards
December 15 – Newberry Library Short-Term Fellowships
December 31 – Rutgers University, The Louis O. Kelso Fellowships
January 15 – New York State Archives Larry J. Hackman Research Residency Program
January 17 – Kauffman Foundation Faculty Fellowship in Entrepreneurship Research
January 18 – National Science Foundation Science of Learning
January 30 – American Philosophical Society Lewis and Clark Fund for Exploration and Field Research
January 31 – International Communication Association James W. Carey Urban Communication Grant
February 1 – Spencer Foundation Small Research Grants
March 1 – J.M. Kaplan Fund Furthermore Grants in Publishing
March 15 – Gerald R. Ford Presidential Foundation Research Travel Grants Program
March 23 – J.M. Kaplan Fund
March 31 – Bartsiber Foundation Grants
March 31 – John Templeton Foundation Academic Cross-Training Fellowship
Rolling deadline – Earhart Foundation Fellowship Research Grants in Humanities & Social Sciences
Rolling deadline – Institute for Humane Studies Hayek Fund for Scholars—Covering conference and job interview travel
Rolling deadline – National Geographic Society Waitt Grants Program
Rolling deadline – National Geographic Expedition Council Grant
Rolling deadline – Puffin Foundation Investigative Fund
Rolling deadline – Pulitzer Center Travel Grants
Rolling deadline – Tools and Trades History Society Salaman Awards
