Housing Accommodation Request

Please refer to the Disability Housing Accommodations Procedures for the complete process for requesting disability-related housing accommodations, including deadlines and formats for required medical documentation. Students must reapply each year for accommodations (previous accommodations not automatically extended). This form should be submitted to ODS in addition to submitting a housing application or room change request to Residential Life & Housing (or registering for Room Selection) by the required deadlines.

Requested Roommate or Suitemate (& UNI), max 1:

Please note that the class year of the applicant for a housing accommodation (and the requested roommate or suitemate, if applicable) is taken into consideration when reviewing housing preferences, which are not guaranteed. For example, all FY students are required to live in multiples within the Quad. Most sophomores live in multiple rooms. Certain buildings or areas may be reserved for seniors. Space may not be available in each area. Information about each residence hall (including room rates) is available at barnard.edu/reslife/housing-options.

Please sign below, indicating that you have read Barnard’s Disability Housing Accommodations Guidelines. If your clinician has not already done so, please make sure they submit new or updated medical documentation in the required DDG format.
