

A woman with long dark hair, wearing a patterned scarf and a dark jacket, is seated at a wooden conference table. She is gesturing with her right hand while speaking. In the background, other people are seated at the table, and a name tag for "Grace Hong, CancerCare" is visible on the table.

# Join us for the 2025 Barnard College Opportunities Conference

True to Barnard College's **community-centered approach to lifelong career success**, the annual **Opportunities Conference** (held on campus on September 26, 2025) reimagines traditional career fairs. In lieu of long lines of students waiting for short, transactional engagements with recruiters, we hold a full day of sustained and substantive discussions.

This distinctive conference is a chance for employers, alumnae, and other friends of Barnard to engage with hundreds of students interested in a wide range of career paths. We invite you to Barnard for a day of recruiting and conversation about advancing and supporting women and well-being at your organization, and across industries.
