## RECESSIONAL

# 2023 BARNARD MEDAL OF DISTINCTION RECIPIENTS

## LYNSEY ADDARIO

Lynsey Addario is an American photojournalist who has been covering conflict, humanitarian crises, and women's issues around the Middle East and Africa on assignment for *The New York Times* and *National Geographic* for more than two decades. Since September 11, 2001, Addario has covered conflicts in Afghanistan, Iraq, Libya, Lebanon, Darfur, South Sudan, Somalia, the Democratic Republic of Congo, Yemen, and Syria, as well as the ongoing war in Ukraine.

In 2015, *American Photo* magazine named Addario as one of five most influential photographers of the past 25 years, saying that she “changed the way we saw the world’s conflicts.”

Addario is the recipient of numerous awards, including a MacArthur Fellowship, the Overseas Press Club’s Olivier Rebbot Award, and two Emmy nominations. She was part of *The New York Times* team to win a Pulitzer Prize for international reporting out of Afghanistan and Pakistan.

In 2015, Addario wrote a *New York Times*-bestselling memoir, *It’s What I Do*, which chronicles her personal and professional life as a photojournalist coming of age in the post-9/11 world. In 2018, she released her first solo collection of photography, *Of Love and War*, published by Penguin Press.

## MARÍA MAGDALENA CAMPOS-PONS

A Cuban native based in Nashville, María Magdalena Campos-Pons is a diverse media artist who relies on her polyglot heritage to profoundly influence her work in photography, performance, painting, sculpture, film, and video.

Her projects are autobiographical, addressing issues of history, memory, gender, and religion and the way that each informs identity. Through deeply poetic and haunting imagery, Campos-Pons evokes stories of the Trans-Atlantic slave trade, indigo and sugar plantations, Catholic and Santería religious practices, and revolutionary uprisings.

She is considered a key figure among Cuban artists who found their voice in a post-revolutionary Cuba. In the fall of 2023, Campos-Pons will have a major touring multimedia survey, co-organized by the Brooklyn Museum and the J. Paul Getty Museum, entitled “María Magdalena Campos-Pons: *Behold*.” The first survey show of her work since 2007, *Behold* will travel to four North American locations with a catalog published by the Getty.

Campos-Pons’s work encapsulates elements of personal history and persona that have universal relevance, depicting her own Afro-Cuban relatives as well as herself as a foil for exploring the salient ties to familiar and cultural history.

She has had solo exhibitions at the Museum of Modern Art in New York, the Indianapolis Museum of Art, the Peabody Essex Museum, and the National Gallery of Canada, among other distinguished institutions, and her work can be viewed in over 30 permanent museum collections worldwide.

## LORETTA J. ROSS

Loretta J. Ross is a professor at Smith College in the Program for the Study of Women and Gender, where she teaches courses on white supremacy, human rights, and “calling in” the call-out culture.

Ross also is a recipient of a 2022 MacArthur Fellowship for her work as an advocate of reproductive justice and human rights. She was the national coordinator of the SisterSong Women of Color Reproductive Justice Collective (2005-2012) and co-created the theory of reproductive justice.

Ross was national co-director of the April 25, 2004, March for Women’s Lives in Washington, D.C., the largest protest march in U.S. history at that time.

She founded the National Center for Human Rights Education (NCHRE) in Atlanta, launched the Women of Color Program for the National Organization for Women (NOW), and was the national program director of the National Black Women’s Health Project.

One of the first African American women to direct a rape crisis center, Ross was the third executive director of the D.C. Rape Crisis Center from 1979 to 1982.

# 2023 MEDALIST AND SPEAKER

## LENA WAITHE

An Emmy Award-winning writer, creator, producer, actor, and founder of Hillman Grad, Lena Waithe continues to lead the cultural revolution in Hollywood.

Waithe expertly taps into emerging societal trends by speaking to myriad experiences from her unique perspective while challenging audiences to think outside of conventional norms.

Through her production company, Hillman Grad, Waithe and her team fight against the status quo by giving marginalized storytellers the opportunity to access the industry and tell their stories.

Acclaimed credits include projects like Netflix's *Master of None* and *Beauty*, Showtime's *The Chi*, BET's *Twenties*, Universal's *Queen & Slim*, Sundance award-winner *The Forty-Year-Old Version*, and more.

Waithe's producorial projects include Focus Features and A.V. Rockwell's *A Thousand and One*, which received the Grand Jury Prize in the U.S. Dramatic Competition at the 2023 Sundance Film Festival Awards and was released theatrically on March 31; *Kokomo City*, which received the NEXT Audience Award and NEXT Innovator Award at Sundance 2023 and has since been acquired by Magnolia Pictures; Disney+'s *Chang Can Dunk*, which premiered on March 10; and *Being Mary Tyler Moore*, which had its world premiere at this year's SXSW Film Festival in March.

This June, Waithe will serve as the 2023 American Black Film Festival Ambassador.

## “COLLEGE ON THE HILLTOP”

There's a college on a hilltop  
That's very dear to me,  
And a certain group of students  
With ties of comrad'rie.  
So we'll sing to dear old Barnard,  
And loyal be and true,  
As we show to coming classes  
How we love the white and blue.

When the day has come for parting  
And college days are o'er,  
There will always be a fondness  
For the good old days of yore.  
And we'll sing to dear old Barnard  
As in memory we see  
The college on the hilltop  
Where our classmates used to be.

# BARNARD COLLEGE

Since its founding in 1889, Barnard has been a distinguished leader in higher education, offering a rigorous liberal arts foundation to students whose curiosity, drive, and exuberance set them apart. Ours is a diverse intellectual community in a unique learning environment that provides the best of all worlds: small, intimate classes in a collaborative liberal arts setting dedicated to the advancement of women with the vast resources of Columbia University just steps away — in the heart of vibrant and electric New York City.

On our leafy four-acre campus on the Upper West Side of Manhattan, our world-class faculty of teacher-scholars educates over 2,900 inspired and intrepid undergraduate students — individuals who, as a matter of course, have gone on to achieve great things. Throughout our history, Barnard graduates have made their mark as leaders in the arts, business, government, and science and as activists for causes too numerous to name.

One hundred and thirty-four years ago, Barnard was the first college in New York City — and one of the few in the world — where women could receive the same liberal arts education available to men. Today, Barnard is one of the most selective academic institutions in the United States and remains devoted to empowering extraordinary women. With the unparalleled opportunities of our cosmopolitan setting, the strength of our academic programs, and our ongoing commitment to diversity, we continue to do what we have done from the beginning with a keen eye to the future.

Barnard graduates change the world and the way we think about it.
