Beyond Barnard: Your Path. Your Purpose.

Our Mission:
To support all Barnard College students and alumnae as they define, pursue, and achieve success in their careers and communities.

Our Vision:
Beyond Barnard will become a recognized national leader in the career preparation and advancement of women in academia, industry, nonprofits, the arts, and government.

In Our Work, We Foster:

**Equity**
We provide programs and resources for students from all backgrounds, advancing social mobility and fostering inclusive dialogue about opportunity in a wide range of careers.

**Exploration**
We help students and alumnae navigate diverse pathways to meaningful work that are open to them regardless of their chosen major. We facilitate their pursuit of research opportunities, internships, externships, jobs, civic engagement, fellowships, graduate and professional study, and other means of using their Barnard education.

**Engagement**
We facilitate productive connections among students, faculty, staff, alumnae, employers, graduate and professional schools, and external partners. In the process, we leverage Barnard’s location in New York City, the strength of its global network, and its distinctive relationship with Columbia University.

**Empowerment**
Through advising, programming, resources, and opportunities for experiential education, we provide students and alumnae with the tools, skills, and confidence to pursue and achieve success as they define it.

III. Communicate to external stakeholders the value of Barnard’s distinctive approach to career training and preparation.
