Hello, faculty,

We are back with our May Grant Opportunities newsletter. Welcome!

Just as a reminder, the first Friday every month at 10 AM, we will be on Zoom to talk about anything you like—reports, projects, writing your first proposal, our secret feats of derring-do. **Our next virtual office hour will be Friday June 3, 2022 at 11 AM.**

Join our Zoom Meeting by clicking here: [https://columbiauniversity.zoom.us/j/99134850839?pwd=cEw0TTAvcWZEbUZnVmxwdGZ5U3IEQT09](https://columbiauniversity.zoom.us/j/99134850839?pwd=cEw0TTAvcWZEbUZnVmxwdGZ5U3IEQT09)

Meeting ID: 991 3485 0839
Passcode: 744075

You can find more information about office hours on [our website](mailto:lcarlson@barnard.edu).

This month we have a **Featured Funder** column about fellowship opportunities coming due in the fall. It’s not too early to think about your applications! (Or to reach out to your friendly neighborhood grant officers.) For **Sage Advice**, we’re sharing an article on the process of co-review at the NSF. For **The History of American Philanthropy**, we are starting the first but by no means the last discussion of philanthropic trends in the Gilded Age, right before the first big foundations began.

We have **news stories** and brief thumbnails of opportunities coming due in July. And in the back, we have six months’ worth of deadlines. (As always, check the website! Some of the later deadlines have not yet been updated.)

That’s it for us. Please reach out if we can be of any help.

Liane Carlson,
lcarlson@barnard.edu
**Featured Funders**

**Fellowships for the Fall**

If you want a fellowship to fund your SAPL year or upcoming sabbatical, you’ll want to start thinking roughly a year in advance. So if you have leave coming up fall of 2023, you would want to start applying to fellowships in fall of 2022. As it happens, most big fellowship applications are due in September and October, so that means that May and June are great times to start strategizing about what you might apply for in a few month’s time. Here’s a sample of some of the big ones!

**American Council of Learned Societies:** “ACLS Fellowships are intended to help scholars devote six to twelve continuous months to full-time research and writing. The awards are portable and are tenable at any appropriate site for research. An ACLS Fellowship may be held concurrently with other fellowships and grants and sabbatical pay. For fellows with full-time academic appointments, the total amount of support, including the ACLS Fellowship, may not exceed the candidate’s academic year salary. Fellows without full-time academic contracts may teach up to one course during the fellowship term.” **Funding:** $60k. **Deadline:** TBA. Previously September 29, 2021.

**Harvard Radcliffe Institute for Advanced Studies:** “Radcliffe supports engaged scholarship. We welcome applications from scholars, artists, and practitioners proposing innovative work that confronts pressing social and policy issues and seeking to engage audiences beyond academia. We welcome proposals relevant to the Institute’s focus areas, which include:

- Law, education, and justice
- Youth leadership and civic engagement
- Legacies of slavery
- Reflecting Radcliffe’s unique history and institutional legacy, we welcome proposals that focus on women, gender, and society or draw on the Schlesinger Library’s rich collections.” **Deadline:** September 8, 2022 (Arts, Social Sciences, and Humanities) or September 29, 2022 (STEM). **Funding:** $78k.

“The Fulbright U.S. Scholar Program offers over 400 awards in more than 130 countries for U.S. citizens to teach, conduct research and carry out professional projects around the world. College and university faculty, as well as artists and professionals from a wide range of fields can join over 400,000 Fulbrighters who have come away with enhanced skills, new connections and greater mutual understanding.” **Funding:** Varies. **Deadline:** September 15, 2022.

The American Association of University Women’s “Postdoctoral Research Leave Fellowship...[aims to] increase the number of women in tenure-track faculty positions and to promote equity for women in higher education. This fellowship is designed to assist the candidate in obtaining tenure and further promotions by enabling her to spend a year pursuing independent research. Tenured professors are not eligible. Open to applicants in all fields of study. Scholars engaged in science, technology, engineering and math fields or those researching gender issues are especially encouraged to apply.” **Funding:** $30k. **Deadline:** November 1, 2022.

“The Institute for Advanced Study is an independent private institution founded in 1930 to create a community of scholars focused on intellectual inquiry, free from teaching and other university obligations. Each year scholars from around the world apply to come to the Institute to pursue their own research. Those who are chosen are offered a membership for a set period. Members receive access to the extensive resources of the Institute, including offices, access to libraries, subsidized restaurant and housing facilities, and some secretarial services.” **Funding:** $78k. **Deadline:** TBA. Previously October 15, 2021.
Who’s Afraid of Co-Reviewers

Recently an article from the NSF’s Division of Environmental Biology crossed our desk, called “Who’s Afraid of Co-Reviews?” We’re sharing some of the helpful points below.

“**What is co-review?** Co-review is when more than one program (or cluster) reviews a proposal, generally in panel but occasionally using ad-hoc reviews.

**Which proposals are co-reviewed?** Projects that stand to advance the science funded by multiple programs are most commonly co-reviewed. Almost always, these are integrative or interdisciplinary studies.

**How does co-review work?** Typically, the program to which the proposal was submitted (i.e., the primary program) determines that there is significant overlap with another program or programs and invites the relevant program(s) to participate in the review process. This participation may range from simply suggesting ad hoc reviewers to taking the proposal to their own panel.

**Can I decide where my proposal gets co-reviewed?** At submission, you are welcome (but not required) to suggest other programs you believe to be relevant for co-review; you do so in the Cover Sheet portion of the proposal. We encourage you to discuss your research idea prior to submission with a Program Officer from each program that you regard as relevant for a potential co-review. You can do this by writing a 1–2-page description of what you have in mind and emailing it to a Program Officer in the cluster you think is most relevant. POs like to hear what PIs are thinking about and they’ll help you figure out where to submit. Often, they can provide explicit guidance as to whether co-review is warranted, and with which programs. After submission, the (primary) program then decides whether to request a co-review from the programs that you’ve suggested.

**What happens after co-review?** If the proposal is favorably reviewed by one or both programs, either or both programs may choose to fund the project. Thus, one of the advantages of co-review is that multiple programs might be willing to help fund the proposal. Funding contributions can vary, but co-funding often allows DEB to support more principal investigators and more individual projects.

**But isn’t it risky to expose my proposal to scrutiny by so many reviewers?** As we all know, an important aspect of promoting the progress of science is getting fair, constructive feedback. For a subset of the proposals we receive, this can only be achieved by expert input and discussion reflecting the breadth of topics covered in the proposal (hence the co-review). A study on the outcomes of co-review at NSF was completed and found that success rates do not decrease as a result of the co-review process.

**But what about the funding rates of co-reviewed proposals?** As part of our award recommendation process, we regularly monitor funding rates of co-reviews, and we have no indication that co-reviewed proposals fare less well than non-co-reviewed proposals.

If the science truly does straddle multiple programs, projects are more likely to be fairly evaluated when experts from multiple disciplines can provide feedback. Even if the proposal is not funded, the advice from a diverse array of reviewers should help to strengthen any future submissions.”
The History of American Philanthropy

The great foundations we all know today—the Rockefeller Foundation, the Russell Sage Foundation, the Carnegie Corporation—all came from the great fortunes of the Gilded Age. In fact, foundations are so tangled up in the Gilded Age and Progressivism, with the time period’s characteristic mixture of squalor and glamor that it’s more common than not to start the story of American philanthropy there and not spend, oh [checks watch] a year-and-a-half building up to the great battles between the robber barons and the federal government over whether foundations should exist at all. And it’s true that the great fortunes behind the great foundations matter, but they’re also better understood as part of a broader movement toward a search for scientific principles for philanthropy.

In the 1860s, charity was a piecemeal, local affair, not entirely dissimilar to the patchwork of laws the Tudor Poor laws tried to standardize in the wake of the English Reformation. There were local charities among churches and within particular ethnic communities, poor houses, orphanages, and individual requests to wealthy individuals for support. And the elite, white Protestant upper class despised it. The wealthy hated the constant requests for charity, the reform-minded intellectuals abhorred the inefficiency of disconnected charitable institutions that allowed individuals (in theory) to go from funder to funder receiving money for their problems, and the budding social scientists considered charity to be a way of treating the symptoms of social dysfunction rather than the cause and theory creating a class of “paupers.” For that matter, the people requesting charity weren’t terribly fond of the system either, knowing full well that by accepting charity they were reinforcing the belief that immigrants and recently freed enslaved people couldn’t stand on their own. (We’ll turn to their experiences in another issue of this column.)

This is the general milieu out of which the early efforts for a more “scientific” approach to philanthropy emerged. One of the leading figures of this movement was Josephine Shaw Lowell, sometimes called the “grand dame of social reformers.” Shaw Lowell embodied the sometimes contradictory combination of good intentions and censoriousness that characterized so much of Progressive reformers during the era. She was born in 1843 to a prominent abolitionist family. (Her brother, Robert Gould Shaw, led the first all-black battalion of troops during the Civil War and encouraged the men he led to refuse their pay until it equaled that of white soldiers.) Josephine Shaw married a businessman named Charles Robert Lowell in 1863. Shortly after their marriage, her husband joined the Union army and within a year was killed in battle. A month after his death, Shaw Lowell gave birth to their daughter.

Newly widowed, she moved to Staten Island to live with her family and became a prominent businesswoman and reformer. She was an ardent anti-imperialist and had in some ways a thoughtful attitude toward charity, noting, “If the working people had all they ought to have, we should not have the paupers and criminals. It is better to save them before they go under, than to spend your life fishing them out afterward.” The goal was not to alleviate poverty but prevent it.

It’s an attitude that still has plenty of cache in current philanthropy. Shaw Lowell, unfortunately, coupled her interest in uprooting poverty with naked disdain for those who had already “gone under,” calling them alternately “worthless men and women” and “vicious and idle.” At various points, she proposed imprisoning all women under thirty who had committed misdemeanors or born at least two illegitimate children and advocated seizing the very poor, and committing them, "until reformed, to district work-houses, there to be kept at hard-labor, and educated morally and mentally."

In 1876 Samuel Tilden (our friend from last month) appointed her Commissioner of the New York State Board of Charities. During her tenure, the Board established the New York State Custodial Asylum for Feeble-Minded Women,” explicitly designed to prevent “feeble-minded” women from reproducing. It was a key moment in one of philanthropy’s signature projects during the Gilded Age–eugenics.
FROM THE NSF

Revision of NSF Award Terms and Conditions:

“The revised terms and conditions will apply to all new NSF awards and funding amendments to existing NSF awards made on or after May 13, 2022. All sets of award conditions are accompanied by a summary of changes made to that document.” <<more>>

Spring 2022 NSF Virtual Grants Conference

“Join the National Science Foundation (NSF) for the Spring 2022 NSF Virtual Grants Conference, to be held during the week of June 6 - 10, 2022. Registration will be free of charge and opens on Wed, May 11 at 12 pm ET.” <<more>>

FROM THE NIH

NIH Issues New Resources for Implementing the NIH Policy for Data Management and Sharing

“NIH is releasing two new resources for the research community that aim to protect privacy and respect the autonomy of research participants when sharing data.” <<more>>

How Many Researchers: the FY 2021 Cumulative Investigator Rate

By Mike Lauer, posted May 3, 2022

“Our annual snapshot of how many researchers NIH supports is back. As with previous posts, the data presented here are also available in the NIH Data Book and represent awards made with traditional and supplemental coronavirus appropriations. The data are distinct from success rates, however, which are application-based metrics (see this post).” <<more>>

Congress Strengthens NIH’s Ability To Address Harassment in NIH-funded Activities

Posted May 10, 2022 by Mike Lauer.

“The recently passed Consolidated Appropriations Act for fiscal year 2022 includes “Section 239,” which is a milestone in our efforts to ensure safe working conditions for people engaged in NIH-supported research. The law requires NIH grant recipients to notify us when their senior key personnel are removed from their position or are otherwise disciplined due to concerns about harassment, bullying, retaliation, or hostile working conditions. This is a major step in our continued effort to change the culture of harassment in biomedical science.” <<more>>

FROM OTHER SOURCES

Odds improve for winning NSF grants, but drop in applications troubles some observers

“A new report from the National Science Foundation (NSF) on its merit review system documents how falling demand has boosted success rates at the $8.5 billion research agency. Released late last month, the analysis shows the annual number of applications submitted to NSF has dropped by 17% over the past decade, falling from 51,562 in 2011 to 42,723 in 2020. Success rates jumped from 22% to 28% during the same period, even though the number of grants awarded increased by 8%. The rate rose even faster—from 19% to 28%—for the agency’s standard research grants.” <<more>>
Fifth IRIS-UMETRICS data release now available
From The Institute for Research on Innovation and Science, posted April 25, 2022.

“IRIS is pleased to announce that our fifth data release is now available on the virtual data enclave. The 2022 dataset includes information on research spending, vendor contracts and employees from more than 80 campuses across the country. It contains data on more than 535,000 sponsored research grants worth more than $137 billion, about $31 billion in payments to more than 970,000 vendors of research-related goods and services, and wages to about 864,000 employees. The dataset has been used by researchers in higher education, economics, sociology and many other fields.” <<more>>

Germany weighs whether culling excess lab animals is a crime
From Science Magazine, By Hinnerk Feldwisch-Drentrup

“In many countries animal rights groups decry the many thousands, even millions, of animals used in medical experiments. In Germany, activists have adopted a new tack: focusing on the even larger number of animals that never make it into an experiment—perhaps because they don’t meet the criteria for a study or were created in the course of breeding a new research strain—and are killed to save space and money.

“Science has learned that prosecutors in the German state of Hesse are now investigating whether the culling of such “excess” research animals by local universities and other institutions constitutes a crime. The probes were launched after two German animal rights groups filed multiple complaints with the prosecutors in June 2021 arguing that this killing violates the country’s strict animal protection laws, which forbid hurting animals without reasonable cause. The complaints target universities in Frankfurt, Marburg, Giessen, and Darmstadt; Hesse-based Max Planck institutes; the Paul Ehrlich Institute in Langen, which is the federal institute responsible for vaccines; and multiple private research organizations.” <<more>>

Duke’s Klotman is Under Consideration as the Next NIH Head

“Mary Klotman, a Duke University scientist and senior leader, is a strong contender to be the next director of the National Institutes of Health, according to three people with knowledge of the selection.” <<more>>

Grant Opportunities

GENERAL INTERESTS AND CROSS-DISCIPLINARY

Stonewall Community Foundation
Stonewall Community Foundation Grants
Deadline: July 15, 2022

“Stonewall grants strengthen the community. We invest in dynamic organizations, projects, and leaders that elevate LGBTQ people and our cultural contributions, advance our rights, and promote our wellness, safety, and liberation.” <<more>>

Leakey Foundation
Leakey Foundation Research Grants
Deadline: July 15, 2022

“The Leakey Foundation exclusively funds research related to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation. The majority of The Leakey Foundation’s Research Grants awarded to doctoral students are in the $3,000-$15,000 range with a funding limit of $20,000. Larger grants
News and Grant Opportunities

given to senior scientists and post-doctoral researchers may be funded up to $30,000. As of May 2022, the funding limits have increased to $20,000 for PhD candidates and $30,000 for senior scientists and post-doctoral researchers.”

Library of Congress
Kluge Fellowships
Deadline: July 15, 2022
“The Kluge Center encourages humanistic and social science research that makes use of the Library's large and varied collections. Interdisciplinary and cross-cultural research is particularly welcome in the Kluge Fellowship program. The fellowship is open to scholars in the humanities and social sciences with special consideration given to those whose projects demonstrate relevance to contemporary challenges.”

Association for Information Science and Technology
Bob Williams Research Grant
Deadline: July 15, 2022
“For 2021, the Bob Williams Research Grant will be awarded to two outstanding research proposals exploring the history of information science and technology. Researchers working on all topics relevant to the history of information science and technology are encouraged to apply and will be considered. The grant consists of funding of up to USD $2,000 along with a certificate signed by the chair of ASIS&T SIG-HFIS.”

National Endowment for the Arts
National Heritage Fellowships
Deadline: July 30, 2022
“The NEA National Heritage Fellowships recognize the recipients’ artistic excellence and support their continuing contributions to our nation's traditional arts heritage. Nominations for the award come from the public, so be sure to nominate a master folk and traditional artist who has made significant contributions to our nation's traditional arts heritage.”

Social Sciences
William T Grant Foundation
William T Grant Scholars Program
Deadline: July 6, 2022
“The William T. Grant Scholars Program supports career development for promising early-career researchers. The program funds five-year research and mentoring plans that significantly expand researchers’ expertise in new disciplines, methods, and content areas. Applicants should have a track record of conducting high-quality research and an interest in pursuing a significant shift in their trajectories as researchers. We recognize that early-career researchers are rarely given incentives or support to take measured risks in their work, so this award includes a mentoring component, as well as a supportive academic community. Awards are based on applicants’ potential to become influential researchers, as well as their plans to expand their expertise in new and significant ways. The application should make

Arts and Humanities
National Endowment for the Arts
Media Arts Project
Deadline: July 7, 2022
“"The National Endowment for the Arts is committed to support activities that reflect the dynamic, diverse, and evolving nature of the media arts field. Applicants may apply in this Art

Return to table of contents
a cohesive argument for how the applicant will expand his or her expertise. The research plan should evolve in conjunction with the development of new expertise, and the mentoring plan should describe how the proposed mentors will support applicants in acquiring that expertise. Proposed research plans must address questions that are relevant to policy and practice in the Foundation’s focus areas.”

**Leakey Foundation**

**Leakey Foundation Research Grants**

**Deadline:** July 15, 2022

“The Leakey Foundation exclusively funds research related to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation. The majority of The Leakey Foundation’s Research Grants awarded to doctoral students are in the $3,000-$15,000 range with a funding limit of $20,000. Larger grants given to senior scientists and post-doctoral researchers may be funded up to $30,000. As of May 2022, the funding limits have increased to $20,000 for PhD candidates and $30,000 for senior scientists and post-doctoral researchers.”

**National Science Foundation**

**Linguistics**

**Deadline:** July 15, 2022

“Supports research on human language — encompassing investigations of the properties of individual human languages and natural language in general — and the intersections of linguistics with cognition, society and other areas of science.”

**National Science Foundation**

**Social Psychology**

**Deadline:** July 15, 2022

“Supports research and infrastructure to advance knowledge of human social behavior, including neural and physiological patterns; thought and emotion processes; and intentions, actions and habits that explain ways of thinking about and relating to others.”

**Biological Anthropology**

**Deadline:** July 20, 2022

“Supports field, laboratory and computational research on human and nonhuman primate adaptation, variation and evolution to advance knowledge about human origins and the dynamics between biology and culture.”

**National Science Foundation**

**Improving Undergraduate STEM Education: Education and Human Resources (IUSE: EHR)**

**Deadline:** July 20, 2022

“The fields of science, technology, engineering, and mathematics (STEM) hold much promise as sectors of the economy where we can expect to see continuous vigorous growth in the coming decades. STEM job creation is expected to outpace non-STEM job creation significantly, according to the Commerce Department, reflecting the importance of STEM knowledge to the US economy.”

**Russell Sage Foundation**

**Immigration and Immigrant Integration**

**Deadline:** July 27, 2022

“The Russell Sage Foundation/Carnegie Corporation Initiative on Immigration and Immigrant Integration seeks to support innovative research on the effects of race, citizenship, legal status and politics, political culture and public policy on outcomes for immigrants and for the native-born of different racial and ethnic groups and generations. This initiative falls under RSF’s Race, Ethnicity, and Immigration Program and represents a special area of interest within the core program, which continues to encourage proposals on a broader set of issues.”
Russell Sage Foundation
Social, Political, Economic, and Psychological Consequences of the COVID-19 Pandemic
Deadline: July 27, 2022
“In response, the Russell Sage Foundation will give high priority over the next several years to rigorous social science research that investigates the immediate and long-term social, political, economic, and psychological consequences of the COVID-19 pandemic in the United States. We are particularly interested in research on the effects of the crisis on vulnerable populations and how they were shaped by both the increased inequalities of the last several decades and the differential effects of federal, state, and local policies implemented in response to the pandemic. We are also interested in how the resulting circumstances and outcomes might influence governments to better anticipate and respond to future crises.”

National Science Foundation
Science of Learning and Augmented Intelligence
Deadline: July 13, 2022
“Supports research to develop fundamental knowledge about principles, processes and mechanisms of learning and about augmented intelligence — how human cognitive function can be augmented through interactions with others, contexts and technology.”

National Science Foundation
Social Psychology
Deadline: July 15, 2022
“Supports research and infrastructure to advance knowledge of human social behavior, including neural and physiological patterns; thought and emotion processes; and intentions, actions and habits that explain ways of thinking about and relating to others.”

National Science Foundation
Developmental Sciences (DS)
Deadline: July 15, 2022
“Supports research on the cognitive, linguistic, social, cultural and biological processes involved in human development across the life span — illuminating the developmental processes that support individuals in living productive lives as members of society.”

National Science Foundation
Faculty Early Career Development Program (CAREER)
Deadline: July 27, 2022
“The Faculty Early Career Development (CAREER) Program is a Foundation-wide activity that offers the National Science Foundation’s most prestigious awards in support of early-career faculty who have the potential to serve as academic role models in research and education and to lead advances in the mission of their
department or organization. Activities pursued by early-career faculty should build a firm foundation for a lifetime of leadership in integrating education and research. NSF encourages submission of CAREER proposals from early-career faculty at all CAREER-eligible organizations and especially encourages women, members of underrepresented minority groups, and persons with disabilities to apply.” <<more>>

**Deadline Reminders**

Below are grants that are, or are expected to be, due in the next six months. For a list of grant deadlines for the whole year, please see our Grants Calendar on the Barnard website.

**GENERAL INTEREST AND CROSS-DISCIPLINARY**

- **June 1**—Type Investigations Ida B. Wells Fellowship
- **June 1**—University of Minnesota’s Immigration History Research Center Archives Michael G. Karni Scholarship
- **June 15**—National Science Foundation Perception, Action, & Cognition Conference Proposals
- **June 30**—Hagley Museum and Library Henry Belin du Pont Research Grants & Exploratory Research Grants
- **July 15**—Association for Information Science and Technology Bob Williams History Fund Research Grant Award
- **July 15**—Library of Congress Kluge Center Fellowship
- **July 15**—Leakey Foundation Research Grant
- **July 25**—National Science Foundation Career Awards
- **August 3**—American Academy of Religion Collaborative Research Grants
- **September 1**—National Endowment for the Humanities Connections Planning Grants
- **September 1**—National Endowment for the Humanities Connections Implementation Grant
- **September 10**—Feminist Review Trust Awards
- **September 13**—Harvard University Radcliffe Institute for Advanced Study Fellowship Programs (Individual Applicants)
- **September 15**—Rockefeller Archive Center Grants-in-Aid for Research
- **September 15**—United States Department of State Bureau of Educational and Cultural Affairs Fulbright U.S. Scholar Program
- **September 2021**—Columbia University School of Journalism Anthony Lukas Prize Project Awards
- **September 17**—John Guggenheim Memorial Foundation Fellowship
- **September 24**—New York Public Library Cullman Center Fellowship for Scholars and Writers
- **September 27**—American Academy in Berlin Prize
- **September 30**—Harvard University Radcliffe Institute for Advanced Study Fellowship Programs (Individual Applicants) for natural sciences and mathematics
- **September 30**—American Council of Learned Societies Fellowships
- **October 1**—Institute for Research and Innovation & Science Research Awards
- **October 1**—American Philosophical Society Franklin Research Grants
- **October 1**—Camargo Foundation Core Program in Cassis, France
- **October 6**—Obama Foundation Fellowship
- **October 14**—National Endowment for the Humanities Dialogues on the Experience of War
- **October 15**—United States Institute for Peace Jennings Randolph Senior Fellowship
- **October 15**—DAAD German Academic Exchange Service Research Stays for University Academics and Scientists
- **October 15**—Chiang Ching-kuo Foundation for International Scholarly Exchange
- **October 21**—National Geographic Society Grants Program
- **November 1**—Grammy Museum Music Research and Music Preservation
- **November 1**—American Academy in Rome Rome Prize
- **November 1**—Gladstone’s Library, Wales Residential Scholarships

October 25—Thoma Foundation Marilyn Thomas Fellowship in Spanish Colonial Art

Creative Arts
June 1—Carey Institute for Global Good Logan Nonfiction Fellowship
June 3—Headlands Center for the Arts Artists in Residency
June 15—Vermont Studio Center Fellowships
June 26—Headlands Center for the Arts Artists in Residency
August 5—National Endowment for the Arts Our Town
August 15—American Musicological Society Subventions for Publications
September 1—Ucross Foundation Residency Program
September 7—Artist Trust Grants for Artist Projects
September 10—Lower Manhattan Cultural Council Creative Engagement
September 10—Lower Manhattan Cultural Council Creative Learning
September 10—Lower Manhattan Cultural Council UMEZ Arts Engagement
October 5—American Antiquarian Society Fellowships for Creative and Performing Artists and Writers
October 15—Amy Lowell Scholarship Fund Poetry Traveling Scholarship
October 15—Clark Art Institute Fellowships
November 1—International Literacy Foundation Children’s and Young Adults’ Book Awards
Rolling deadline (6-8 weeks before performance) – Foundation for Contemporary Arts Emergency Grants
Rolling deadline – Pollock-Krasner Foundation Grant Program
Various—Artist Trust Grants

Gender Studies
Rolling—Reed Foundation Ruth Landes Memorial Research Fund

History
June 15—The Culinary Historians of New York Scholar’s Grant
October 15—Institute for Advanced Study School of Historical Studies
November 1—The Jefferson Monticello Short Term Fellowships
November 15—American Society for Eighteenth Century Studies Louis Gottschalk Prize
November 20—NYU Institute for the Study of the Ancient World Visiting Scholar Research Program (not updated)
November 25—Quentin Skinner Fellowship in Intellectual History since 1500
Rolling deadline – University of Florida Samuel Proctor Oral History Program Julian Pleasants Travel

</table>
Grants and Fellowship Opportunities (cont’d)

**Anthropology and Archeology**
June 1 — Wenner Gren Foundation Conference and Workshop Grants
July 15 — The Leakey Foundation Research Grants
July 20 — National Science Foundation Biological Anthropology
August 1 — The Harry Frank Guggenheim Foundation Research Grants
August 15 — National Science Foundation Cultural Anthropology Senior Research Awards
August 18 — National Science Foundation Decision, Risk and Management Sciences
August 26 — Rita Allen Scholars Program
November 1 — Archaeological Institute of America Archaeology of Portugal Fellowships
November 1 — Archaeological Institute of America The Ellen and Charles Steinmetz Endowment Fund for Archaeology
November 1 — Archaeological Institute of America Olivia James Traveling Fellowship
November 1 — Archeological Institute of America Publications Subvention Program
November 1 — Archeological Institute of America Julie Herzig Desnick Endowment Fund for Archeological Field Surveys
November 1 — Archeological Institute of America Richard C. MacDonald Iliad Endowment for Archaeological Research
November 1 — Archeological Institute of America The Kathleen and David Boochever Endowment Fund for Fieldwork and Scientific Analyses
November 1 — Archeological Institute of America Helen M. Woodruff Fellowship of the AIA and the American Academy in Rome
November 1 — Archaeological Institute of America Harriet and Leon Pomerance Fellowship
November 1 — Archeological Institute of America Samuel H. Kress Grant for Research and Publication in Classical Art and Architecture
November 1 — Wenner-Gren Foundation Post-Ph.D. Research Grants
Rolling — National Science Foundation High-Risk Research in Biological Anthropology and Archaeology (among others related to Archaeology and Archaeometry)

**Political Science**
Rolling deadline — Baylor Collections of Political Materials Dowdy Research Grant
Various — American Political Science Association Award

**Education**
June 1 — National Education Association Foundation Learning and Leadership Grants
July 6 — William T. Grant Foundation William T. Grant Scholars Program
July 7 — William T. Grant Foundation William T. Grant Scholars Program
July 20 — National Science Foundation Improving Undergraduate STEM Education: Education and Human Resources
July 21 — National Science Foundation Improving Undergraduate STEM Education: Education and Human Resources
August 1 — Brady Education Foundation Grants
August 13 — National Science Foundation Innovative Technology Experiences for Students and Teachers (ITEST)
September 15 — Spencer Foundation Research-Practice Partnership Grants
November 1 — National Council of Teachers of Mathematics Pre-K-6 Classroom Research
Rolling deadline — Cornell Douglas Foundation Grants
Various — Institute of Education Science Research Grants
Grants and Fellowship Opportunities (cont’d)

**Language and Area Studies**

June 1 — Conference on Latin American History Lydia Cabrera Awards
June 30 — University of London, School of Advanced Study Institute of Commonwealth Studies Henry Charpes Chapman Fellowship
July 15 — The Leakey Foundation Research Grants
September 1 — Association for Asian Studies First Book Subvention Program
September 15 — Chiang Ching-Kuo Foundation for International Scholarly Exchange Publication Subsidies
September 30 — Wilson Center Kennan Institute Title VIII Short-Term Grants
October 1 — American Councils Research Title VIII Research Scholar Program in Eastern Europe
October 1 — Association for Asian Studies Northeast Asia Council Japan Studies Grants
October 1 — Association for Asian Studies Northeast Asia Council Korean Studies Grants
October 1 — International Institute for Asian Studies Fellowship
October 2 — Sultan Qaboos Cultural Center’s Research Fellowship
October 15 — Chiang Ching-kuo Foundation for International Scholarly Exchange Scholar Grants
October 31 — Belgian American Educational Foundation Fellowships
November 1 — American-Scandinavian Foundation Fellowships/Grants to Study in Scandinavia
November 1 — Harvard Center for European Studies Visiting Scholars and Fellows Program
November 2 — Henry Luce Foundation/American Council of Learned Societies Program in China Studies Fellowships and Grants
November 7 — Asian Cultural Council Individual Fellowship Program
November 8 — David Rockefeller Center for Latin American Studies Visiting Scholar
November 10 — Russell Sage Foundation Behavioral Economics
November 15 — The Robert H. N. Ho Family Foundation Program in Buddhist Studies/The American Council of Learned Societies (ACLS) Fellowships and Grants
November 15 — American Institute of Indian Studies Research & Senior Scholarly/Professional Development Fellowships
Rolling deadline — Chung-Hwa Institute of Buddhist Studies Grant for Book-length Monographs in Chinese Buddhism
Rolling deadline — Columbia University European Institute Faculty Research Grants
Rolling deadline — Columbia University Institute of Latin American Studies FT Faculty Research Grants
Rolling deadline — Japan Foundation Grant for Japanese Studies
Rolling deadline — Japan Foundation Grant for Art and Culture
Various — Harriman Center at Columbia University Faculty Research Support

**STEM**

General Interest and Cross Disciplinary

June 25 — National Institutes of Health Academic Research Enhancement Award (AREA) R15 Grants
June 30 — AAAS Early Career Award for Public Engagement with Science
July 1 — Research Corporation for Science Advancement Cottrell Scholars Award
**Grants and Fellowship Opportunities (cont’d)**

August 1—National Science Foundation Opportunities for Promoting Understanding through Synthesis (OPUS)
August 31—Engineering Information Foundation Women in Engineering Grant Program
September 5—National Science Foundation Mathematical Biology
September 9—Harvard University Radcliffe Institute for Advanced Study Fellowship Programs (Individual Applicants)
September 15—The Eppley Foundation for Research
September 15—Alfred P. Sloan Foundation Sloan Research Fellowships
September 25—National Institutes of Health P-Series, R18, U18, R25
September 30—Searle Scholars Program
September 30—Horne Family Foundation Grants
September 30—Google Faculty Research Grant
October 1—Sigma Xi Research Grants
October 1—Whitehall Foundation Grants-in-Aid and Research Grants
October 7—National Science Foundation EHR Core Research (ECR) Opens September 14 2021—Johnson & Johnson WiSTEM2D Scholars
October 4—Pershing Square Sohn Cancer Research Society Prize for Young Investigators in Cancer Research
October 15—National Academies of Sciences, Engineering, and Medicine Jefferson Science Fellowship
October 21—Columbia University Research Initiatives in Science and Engineering
October 25—Columbia Science and Society Seed Grants
November 1—W. M. Keck Foundation Research Program
November 1—W. M. Keck Foundation Research Program
November 1—National Academies of Science, Engineering, Medicine National Research Council Research Associateship Programs
November 1—National Radio Astronomy Observatory Jansky Fellowship
November 1—W. M. Keck Foundation Research Program
November 1—American Association for the Advancement of Science Science and Technology Fellows
November 3—Blavatnik Family Foundation US National Awards
November 6—National Science Foundation Advancing Informal STEM Learning
November 15—Institute for Advanced Study, School of Natural Sciences Membership
November 15—National Science Fondation Dynamics of Coupled Natural and Human Systems Program
Mid-November—United States-Israel Binational Science Foundation Regular Program
November 17—United States-Israel Binational Science Foundation Regular Program
Rolling—The Franklin Institute Benjamin Franklin Medal
Rolling—National Speleological Society Research Grants

**Biology and Earth Science**
July 20—National Science Foundation Biological Anthropology
July 20—National Science Foundation Biological Anthropology
August 1—National Science Foundation Opportunities for Promoting Understanding through Synthesis (OPUS)
October 26—National Science Foundation Division of Earth Sciences Postdoctoral Fellowships
October 1—Sarah de Coizart Article Tenth Perpetual Charitable Trust grants
October 1—International Union of Biochemistry and Molecular Biology Mid-Career Research Fellowships
October 4—National Science Foundation Macrosystems Biology and NEON Enabled Science

*Return to table of contents*
Grants and Fellowship Opportunities (cont’d)

October 4—National Science Foundation Biological Anthropology
October 4—National Science Foundation Integrated Earth Systems
October 4—National Science Foundation Frontier Research in Earth Sciences (FRES)
October 4—National Science Foundation Ocean Technology and Interdisciplinary Coordination
October 4—National Science Foundation GeoPRISMS
October 20—National Science Foundation Paleo Perspectives on Climate Change
November 4—National Science Foundation Directorate for Biological Sciences Awards Postdoctoral Research Fellowships in Biology
November 30—National Speleological Society Int’l Exploration Grants
Rolling—National Speleological Society Research Grants
Rolling—National Science Foundation Environmental Biology
Rolling—National Science Foundation Long Term Research in Environmental Biology

Chemistry
Active funding opportunities for Chemistry from the National Science Foundation can be found here.
June 15—American Chemical Society WCC Rising Star Award
September 30—National Science Foundation Division of Chemistry: Disciplinary Research Programs (CHE-DRP)
September 30—National Science Foundation Division of Chemistry: Disciplinary Research Programs (CHE-DRP)
October 16—National Science Foundation Centers for Chemical Innovation (CCI)
October 31—National Science Foundation Division of Chemistry: Disciplinary Research Programs (CHE-DRP)
November 1—American Chemical Associations/The Camille and Henry Dreyfus Foundation – Award for Encouraging Women into Careers in the Chemical Sciences
Rolling deadline—American Chemical Society Community Recognition Grants
Rolling deadline—Chemical Heritage Foundation Travel Grants

Engineering
July 16—National Science Foundation Career Awards -- Engineering
July 25—National Science Foundation Career Awards -- Engineering
August 31—Engineering Information Foundation Women in Engineering Grant Program
October 15—National Science Foundation Computational and Data-Enabled Science and Engineering Division of Materials Research
Various—National Science Foundation Computational and Data-Enabled Science and Engineering Division of Chemistry, Chemical Measurement and Imaging
Various—National Science Foundation Computational and Data-Enabled Science and Engineering Division of Astronomical Sciences

Health and Medicine
June 11—Vilcek Foundation Biomedical Science
August 31—Elsa U. Pardee Foundation Grants
October 4—Pershing Square Sohn Prize for Young Investigators in Cancer Research
November 17—National Science Foundation Ecology and Evolution of Infectious Diseases
Rolling deadline—Robert Wood Johnson Evidence for Action (E4A): Investigator-Initiated Research to Build a Culture of Health
Grants and Fellowship Opportunities (cont'd)

**Mathematics and Physics**
- June 1 — National Science Foundation Research Training Groups in the Mathematical Sciences
- June 1 — National Science Foundation Research Training Groups in the Mathematical Sciences
- June 30 — American Astronomical Society Annie Jump Cannon Award in Astronomy
- September 15 — National Science Foundation Computational and Data-Enabled Science and Engineering in Mathematical and Statistical Sciences (CDS&E-MSS)
- September 24 — Simons Foundation Fellows Program
- September 25 — National Science Foundation Probability
- September 27 — National Science Foundation Combinatorics
- September 30 — National Science Foundation Division of Mathematical Sciences Analysis Program
- November 11 — NASA Hubble Fellowship Program
- November 15 — National Science Foundation Astronomy and Astrophysics Grants
- Rolling deadline — National Science Foundation Conferences and Workshops in the Mathematical Sciences
- Rolling deadline — Simons Foundation Targeted Grants in Mathematics and Physical Sciences
- Various — American Psychological Society Fellows

**Psychology and Neuroscience**
- June 1 — American Psychological Foundation Division 49 Group Psychology Grant
- June 15 — American Psychological Foundation Division 39 Grant
- July 15 — National Science Foundation Developmental Science
- July 15 — National Science Foundation Social Psychology
- July 15 — American Psychological Foundation APA Travel Grants for US Psychologists to Attend International Conferences
- September 15 — American Psychological Foundation Dr. Rosalee G. Weiss Lecture for Outstanding Leaders in Psychology
- September 16 — National Institutes of Health Blueprint for Neuroscience Research
- September 30 — American Psychological Foundation Walfish Grants Program
- October 1 — Society for the Teaching of Psychology Conference Speak Grant Program
- October 15 — American Psychological Foundation Lizette Peterson-Homer Injury Prevention Grant
- October 4 — Society of Biological Psychiatry Travel Fellowship Award
- November 1 — Society for the Teaching of Psychology STP Early Career Travel Grant Program
- November 1 — Society for the Teaching of Psychology Partnerships Small Grant Program
- November 1 — American Psychological Foundation Carmi Harari Early and Mid-Career Awards
- November 1 — STP Partnerships Small Grant Program
- November 1 — Society for the Teaching of Psychology Scholarship of Teaching and Learning (SoTL) Research Grant
- November 11 — Austen Riggs Center Erikson Scholar Program
- November 23 — National Science Foundation Collaborative Research in Computational Neuroscience
- November 23 — National Science Foundation Collaborative Research in Computational Neuroscience

**Library Science**

- September 24 — Institute of Museum and Library services National Leadership Grants for Libraries
- Rolling — International Association of Sound and Audiovisual Archives Research Grants
