Hello, faculty,

The National Academies of Sciences, Engineering, and Medicine is our Featured Funder this go around. For Sage Advice we get into the nitty-gritty of proposal rules, with the NIH’s “Do’s and Don’ts of Hyperlinks.” You’ll see they are similar to the NSF’s guidelines for hyperlinks.

Recent News is followed by profiles of opportunities coming up through the first week of September. You social scientists have lots to go through, especially from the National Science Foundation. Oddly, many of the opportunities have more than one deadline per year—good for those who want to plan for the next offering. Reminders for deadlines over the next six months begin on page twelve, grouped by discipline.

For deadlines throughout the year, see the Grants Calendar and Fellowships Calendar, perpetually in progress, on the Barnard website at External Grant Opportunities. You can download it as an excel document and sort, search, and filter to your heart’s content.

Next year’s internal grants deadlines will eventually be posted on the Internal Grants page of the Barnard website. If you have colleagues abroad whom you would like to bring to Barnard under the Weiss Fellowships for Visiting International Scholars Program, please see information here.

For assistance in finding grants for an upcoming project or to begin an application process, please contact Kari Steeves or any one of us in Institutional Funding and Sponsored Research. As always, feel free to send us comments, requests, or suggestions here.

We hope you’re keeping cool!

**National Academies of Sciences, Engineering, and Medicine**

Consisting of its three primary academies of sciences, engineering, and medicine, NASEM works “to provide independent, objective analysis and advice to the nation and conduct other activities to solve complex problems and inform public policy decisions. The National Academies also encourage education and research, recognize outstanding contributions to knowledge, and increase public understanding in matters of science, engineering, and medicine.” Membership is by election and “is considered one of the highest professional honors among scientists, engineers, and health professionals.”

The Academies sponsors 17 Fellowship programs for early career and six Fellowship programs for mid-career scientists, engineers and medical professionals. Some programs offer multiple opportunities for fellowships.

Scientists wanting to be come more deeply involved in policy and governance should consider the [Jefferson Science Fellows Program](#). "Selected Jefferson Science Fellows spend one year on assignment at the U.S. Department of State or USAID as science advisors on foreign policy/international development issues.” The deadline is October 31, 2019. <<more>>

Notably, the [Research Associateship Program](#), under the auspices of the National Research Council, the “working arm” of NASEM, connects researchers to 20 host laboratories affiliated with government agencies. In keeping with the military origins behind the founding of NASEM, many of them are military laboratories, such as the U.S. Army Natick Soldier Research, Development, and Engineering Center, currently offering twelve positions, including one on “The Effects of Social Context and Hormones on Stress and Performance in Groups.” Non-Military participating agencies include Environmental Protection Agency Faculty Fellowships, with 32 open opportunities, and National Oceanic & Atmospheric Administration, with 192 open opportunities. <<more>>

NASEM administers the [Ford Foundation Postdoctoral Fellowship](#) Program which “seeks to increase the diversity of the nation’s college and university faculties by increasing their ethnic and racial diversity, maximize the educational benefits of diversity, and increase the number of professors who can and will use diversity as a resource for enriching the education of all students.” The range of fields of study granted through these fellowships is wide, so [humanists and social scientists can also apply](#), as long as the project is research based. Practice-based projects, such as fine art, filmmaking, library and information science, performing arts, and teacher education, are not eligible for funding. The deadline is December 10. The bonus to Ford Fellowships is that recipients are eligible to apply for a [Ford Foundation Senior Fellowship](#) later in their careers. <<more>>

In addition to grants, NASEM makes awards each year in recognition of “outstanding achievement in the physical, biological, and social sciences.” National Academy of Sciences does not accept self-nomination, but one does not need to be a member to nominate or be nominated. Deadline for 2020 awards is October 7, 2019. <<more>>

The National Academy of Engineering, National Academy of Medicine, and Transportation Research Board all give out awards as well. See [here](#) for more information.
Sage Advice for Competitive Proposals

NIH’s “Do’s & Don’ts of Hyperlinks in Grant Applications”

The NIH recently published an explanation of why hyperlinks are not allowed in most sections of NIH applications. The simple instructions are:

- “Do include hyperlinks when explicitly requested in application guide, funding opportunity, or NIH Guide notice instructions
- Do use hyperlinks in relevant citations and publications included in biosketches and publication list attachments
- Don’t use hyperlinks anywhere else in your application.”

The author, credited as “NIH Staff,” explains:

- **Fairness.** Key sections of NIH grant applications – Specific Aims, Research Strategies, and Training Program Plans, to name a few – are page limited. Page limits promote fairness by ensuring all applicants have an equal opportunity to present their proposed project. Linking out to additional supporting information negates our page limits.
- **Reviewer Anonymity.** We instruct reviewers to rely on the information contained in the grant application and caution them not to follow unrequested links to websites. Website access, especially access to sites controlled by the institution or PI, can be tracked and can compromise reviewer anonymity.
- **Security.** Just like clicking on links in phishing emails, following links in grant applications can expose a reader to viruses, malware, or other security threats that can compromise our ability to protect application information.”

(In case you were wondering like I was, the inconsistent spelling of “Do’s and Don’ts” is standard, especially for web-based media as well as magazines and newspapers. So, however, is “Dos and Don’ts.” Yeah, you’re welcome.)

In their application guidelines, the NIH offers the following guidelines for hyperlink usage:

- Hyperlinks and URLs may not be used to provide information necessary to application review.
- Reviewers are not obligated to view linked sites and are cautioned that they should not directly access a website (unless the link to the site was specifically requested in application instructions) as it could compromise their anonymity.
- When allowed, you must hyperlink the actual URL text so it appears on the page rather than hiding the URL behind a specific word or phrase.”

[https://grants.nih.gov/grants/how-to-apply-application-guide/format-and-write/format-attachments.htm#hyperlinksandurls](https://grants.nih.gov/grants/how-to-apply-application-guide/format-and-write/format-attachments.htm#hyperlinksandurls) (written out here in deference to bullet three)

Likewise, the NSF’s Proposal and Award Policies and Procedures Guide (PAPPG) says:

“PIs are cautioned that the Project Description must be self-contained and that URLs must not be used because: 1) the information could circumvent page limitations; 2) the reviewers are under no obligation to view the sites; and 3) the sites could be altered or deleted between the time of submission and the time of review.” URLs are allowed in citation and product lists.
The NSF recently released two Dear Colleague Letters we wanted to highlight to our faculty members.

**May 20, 2019**

**Effective Practices for Data**

"...The purpose of this Dear Colleague Letter (DCL) is to describe — and encourage — effective practices for managing research data\(^1\), including the use of persistent identifiers (IDs) for data and machine-readable data management plans (DMPs).

NSF’s DMP requirement, as stated in NSF 15-052, expands on NSF’s long-standing data-sharing policy. The DMP requirement specifies that every proposal submitted to NSF must include a supplementary document of no more than two pages, titled "Data Management Plan." This document should describe how activities described in the grant proposal will conform to NSF policy on the dissemination and sharing of research results.

As early as January 2013, NSF allowed principal investigators (PIs) to report data products in their biographical sketches. This extension put scientific data sets on a standing equal to traditional publications, such as peer-reviewed journal articles, juried conference papers, book chapters, and monographs.

Putting data in a form that others can use may require work that goes above and beyond a stated research activity. This additional work may be called "data curation" or "data cleaning." **PIs may budget for this expense – that is, they may budget for the work needed to prepare research data for distribution.** See the NSF Proposal and Award Policies and Procedures Guide (PAPPG) Chapter II.C.2.g.(vi).b...." <<more>>

**June 17, 2019**

"Dear Colleagues:

Please be advised that the National Science Foundation (NSF) has designated the National Institutes of Health’s SciENcv (Science Experts Network Curriculum Vitae) as an NSF-approved format for submission of biographical sketch(es) and is encouraging its use to prepare a biographical sketch for inclusion in proposals to NSF.

In accordance with the current Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 19-1), a biographical sketch (limited to two pages) is required for each individual identified as senior personnel on a proposal, and a separate biographical sketch PDF file, or other NSF-approved format, must be uploaded in FastLane for each designated individual (see PAPPG Chapter II.C.2.f.). The biographical sketch and file format requirements also apply to NSF proposals submitted through Research.gov and Grants.gov.

Use of an NSF-approved format aims to reduce administrative burden and improve efficiencies by providing proposers with a compliant and reusable way to maintain this information for subsequent proposal submissions to NSF, while also ensuring that the information is submitted in a searchable composition.

Beginning with the next iteration of the PAPPG (anticipated effective date, January 2020), NSF will only accept PDFs for biographical sketches that are generated through use of an NSF-approved format. A description of NSF-approved format(s) will be posted on the NSF website when the PAPPG is issued. A draft version of the PAPPG was published in the Federal Register for public comment. The deadline for submission of comments is COB July 29, 2019.

Multiple training resources are available on the SciENcv website. The following website resources may be of assistance to proposers preparing a biographical sketch using the SciENcv format:

- SciENcv Background
- YouTube Video: SciENcv Tutorial
- YouTube Video: Integrating with ORCID
- SciENcv Help

We encourage you to share this information with..."

“Noticing More Notices of Special Interest?"
Posted on June 17, 2019, by NIH Staff

You might have noticed an increased use of Guide Notices called Notices of Special Interest (NOSI), rather than full program announcements, to alert the community of specific research topics of interest. This is not a new concept, as some NIH institutes have been using this approach for many years – we are just formalizing it and expanding its use across all institutes.

Notices of Special Interest highlight areas of scientific interest and point to existing funding opportunity announcements (often parent announcements) for submission of the applications. NIH currently has a large number of non-parent program announcements with standard submission and review requirements that only vary from one another in the scientific topics highlighted. These PAs will be phased out over time and will be replaced with NOSIs. This change in no way diminishes our interest in these scientific topics. It simply streamlines how we announce our interests.”

Grant Opportunities

General

Joyce Foundation Grants
Deadline: August 7, 2019

"The Joyce Foundation is a nonpartisan, private charitable foundation that supports evidence-informed policies to improve quality of life, promote safe and healthy communities, and build a just society for the people of the Great Lakes region. Our five program strategies advance five policy areas we see as essential to our mission: Education and Economic Mobility, the Environment, Gun Violence Prevention and Justice Reform, Democracy, and Culture."
networking and communication. Funds may also be used to support small research conferences. Conference proposals will be considered only if they are designed primarily to advance research. Conferences presenting papers that report on previous research will not be considered.... Funds are not provided for research assistance, supplemental salary, stipends, or released time, publication and/or subvention costs, transcription costs, or travel to attend the AAR Annual Meetings." <<more>>

American Musicological Society
Subventions for Publication
Deadline: August 15, 2019, and February 15, 2020
"Through funding provided by the National Endowment for the Humanities, the Andrew W. Mellon Foundation, the Gladys Kriebel Delmas Foundation, and the generous contributions of many individual donors, the Publications Committee of the American Musicological Society makes available funds to help with expenses involved in the publication of works of musical scholarship, including books, essay collections, articles, chapters in essay collections, special issues of journals, and works in non-print media. Subventions are granted for any topics of musicological research. Individual authors or editors, or their sponsoring organization, society, or department, may apply for assistance to defray costs not normally covered by publishers. Examples include costs related to illustrations, musical examples, facsimiles, accompanying audio or video examples, and permissions. Subventions are not given to defray costs associated with indexing. Author subventions required by publishers are not eligible for reimbursement.” <<more>>

J.M. Kaplan Fund
Furthermore Grants in Publishing
Deadline: September 1, 2019, March 1, 2020
“Furthermore grants in publishing, a program of the J. M. Kaplan Fund, supports publication of nonfiction books that concern the arts, history, and the natural and built environment.” <<more>>

Pasold Research Fund
Publication Grants
Deadline: September 1, 2019, February 15, 2020
"The Pasold Fund promotes and supports research on textile history, broadly defined, including the history of dress and the history of fashion. It does this by giving financial assistance to researchers, by organising and supporting conferences and workshops and by publishing a monograph series and a major journal, Textile History." The aim is to subsidise the publication of essential illustrative material in high quality research, particularly in research monographs. Applicants should use the Publication Grant Form and must ensure that they provide a full listing and description of the illustrative material, its source and the documented costs of obtaining the material for publication. A detailed description of the nature and content of the research monograph or other output must also be included and a case should be made for the importance of the illustrations to the
analysis. Where funding is sought to complete or to part-finance a commissioned work and/or a work to be published under the auspices of a university, museum, gallery or similar, please specify the necessity and case for, and the role of, the additional external funding." <<more>>

**Warhol Foundation**

**Grants for Curatorial Programs**

**Deadline:** September 1, 2019, and March 1, 2020

“Grants are made on a project basis to curatorial programs at museums, artists’ organizations, and other cultural institutions to originate innovative and scholarly presentations of contemporary visual arts. Projects may include exhibitions, catalogues, and other organizational activities directly related to these areas. The program also supports the creation of new work through regranting initiatives and artist-in-residence programs. The foundation values the contributions of all artists, reflecting the true diversity of the contemporary art field, and encourages proposals that highlight women, artists of color, and under-represented practitioners.” <<more>>

**Social Sciences**

**Harry Frank Guggenheim Foundation Research Grants**

**Deadline:** August 1, 2019

“The foundation welcomes proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world. Questions that interest the foundation concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships, among other subjects.” <<more>>

**National Science Foundation**

**Law & Social Sciences**

**Deadline:** August 1, 2019, and January 15, 2020

“The Law & Social Sciences Program considers proposals that address social scientific studies of law and law-like systems of rules. The Program is inherently interdisciplinary and multi-methodological. Successful proposals describe research that advances scientific theory and understanding of the connections between law or legal processes and human behavior. Social scientific studies of law often approach law as dynamic, made in multiple arenas, with the participation of multiple actors. Fields of study include many disciplines, and often address problems including though not limited to:

- Crime, Violence and Punishment
- Economic Issues
- Governance
- Legal Decision Making
- Legal Mobilization and Conceptions of Justice
- Litigation and the Legal Profession"

<<more>>

**Science, Technology, and Society**

**Deadline:** August 3, 2019, and February 2, 2020

“The Science, Technology, and Society (STS) program supports research that uses historical, philosophical, and social scientific methods to investigate the intellectual, material, and social facets of the scientific, technological, engineering and mathematical (STEM) disciplines. It encompasses a broad spectrum of STS topics including interdisciplinary studies of ethics, equity, governance, and policy issues that are closely related to STEM disciplines, including medical science.” <<more>>

**Cultural Anthropology Senior Research Awards**

**Deadline:** August 15, 2019, and January 15, 2020

“The primary objective of the Cultural Anthropology Program is to support fundamental, systematic anthropological research and training
to increase understanding of the causes, consequences, and complexities of human social and cultural variability. The Cultural Anthropology Program welcomes proposals from researchers in all sub-fields of cultural anthropology and research at any temporal and spatial scale. Methodologies and approaches employed may include ethnographic field research, surveys, remote sensing, the collection of bio-markers, experimental research inside or outside of laboratory settings, archival research, the analysis of materials collections and extant data bases, mathematical and computational modeling, and other research tools as appropriate for the research proposed. The overarching research goals should be to produce empirically grounded findings that will be generalizable beyond particular case studies and contribute to building a more robust anthropological science of human society and culture."

National Science Foundation
Political Science
Deadline: August 15, 2019, and January 15, 2020
"The Political Science Program supports scientific research that advances knowledge and understanding of citizenship, government, and politics. Research proposals are expected to be theoretically motivated, conceptually precise, methodologically rigorous, and empirically oriented. Substantive areas include, but are not limited to, American government and politics, comparative government and politics, international relations, political behavior, political economy, and political institutions. In recent years, program awards have supported research projects on bargaining processes; campaigns and elections, electoral choice, and electoral systems; citizen support in emerging and established democracies; democratization, political change, and regime transitions; domestic and international conflict; international political economy; party activism; political psychology and political tolerance."

National Science Foundation
Sociology
Deadline: August 15, 2019, and January 15, 2020
"The Sociology Program supports basic research on all forms of human social organization -- societies, institutions, groups and demography -- and processes of individual and institutional change. The Program encourages theoretically focused empirical investigations aimed at improving the explanation of fundamental social processes. Included is research on organizations and organizational behavior, population dynamics, social movements, social groups, labor force participation, stratification and mobility, family, social networks, socialization, gender, race and the sociology of science and technology. The Program supports both original data collections and secondary data analysis that use the full range of quantitative and qualitative methodological tools. Theoretically grounded projects that offer methodological innovations and improvements for data collection and analysis are also welcomed."

Sociological Initiatives Foundation Grants
Deadline: August 16, 2019
"The Sociological Initiatives Foundation supports social change by linking research to social action. It funds research projects that investigate laws, policies, institutions, regulations, and normative practices that may limit equality in the United States. It gives priority to projects that seek to address racism, xenophobia, classism, gender bias, exploitation, or the violation of human rights and freedoms. It also supports research that furthers language learning and behavior and its intersection with social and policy questions."

National Science Foundation
Decision, Risk, and Management Sciences
Deadline: August 18, 2019, and January 18, 2020
"The Decision, Risk and Management Sciences program supports scientific research directed at increasing the understanding and effectiveness of decision making by individuals, groups, organizations, and society. Disciplinary and interdisciplinary research, doctoral dissertation research improvement grants (DDRIGs), and
workshops are funded in the areas of judgment and decision making; decision analysis and decision aids; risk analysis, perception, and communication; societal and public policy decision making; management science and organizational design." <<more>>

National Science Foundation Economics
Deadline: August 18, 2019, and January 21, 2020
"The Economics program supports research designed to improve the understanding of the processes and institutions of the U.S. economy and of the world system of which it is a part. This program also strengthens both empirical and theoretical economic analysis as well as the methods for rigorous research on economic behavior. It supports research in almost every area of economics, including econometrics, economic history, environmental economics, finance, industrial organization, international economics, labor economics, macroeconomics, mathematical economics, and public finance. The Economics program welcomes proposals for individual or multi-investigator research projects, doctoral dissertation improvement awards, conferences, symposia, experimental research, data collection and dissemination, computer equipment and other instrumentation, and research experience for undergraduates. The program places a high priority on interdisciplinary research." <<more>>

Russell Sage Foundation Computational Social Science
Deadline: August 19, 2019, for letter of inquiry
"The Russell Sage Foundation’s initiative on Computational Social Science (CSS) supports innovative social science research that brings new data and methods to bear on questions of interest in its core programs in Behavioral Economics, Future of Work, Race, Ethnicity and Immigration, and Social Inequality. Limited consideration will be given to questions that pertain to core methodologies, such as causal inference and innovations in data collection." <<more>>

Russell Sage Foundation Initiative on Immigration and Immigrant Integration
Deadline: August 21 and November 26, 2019, for letter of inquiry
“The Russell Sage Foundation/Carnegie Corporation Initiative on Immigration and Immigrant Integration seeks to support innovative research on the effects of race, citizenship, legal status and politics, political culture and public policy on outcomes for immigrants and for the native-born of different racial and ethnic groups and generations. This initiative falls under RSF’s Race, Ethnicity, and Immigration Program and represents a special area of interest within the core program, which continues to encourage proposals on a broader set of issues.” <<more>>

Russell Sage Foundation Future of Work
Deadline: August 21, 2019, for letter of inquiry
"The Future of Work program examines the causes and consequences of the deteriorating quality of low-wage jobs in the United States. Projects sponsored by the program have examined a wide range of causal factors, from foreign outsourcing and immigration to the decline of unions and technological change, that may have depressed wages of low-education workers. Current research under this program includes a new investigation to re-assess how minimum wage increases affect employment and the broader labor market; a new study of the extent of offshoring of production by U.S. firms and its impact on the economy; and a project that examines the role of job search behaviors on the employment and wage outcomes of women and minorities in the post-recessionary U.S. labor market, among others." <<more>>

Russell Sage Foundation Behavioral Economics
Deadline: August 21 and November 26, 2019, for letter of inquiry
"The Russell Sage Foundation’s program on Behavioral Economics supports innovative
research that uses behavioral insights from psychology and other social sciences to examine and improve social and living conditions in the United States. We seek investigator-initiated research proposals that will broaden our understanding of the social, economic and political consequences of real-life behaviors and decisions that deviate from the neoclassical economic standards of rationality. RSF is especially interested in behavioral economics research that contributes to our understanding of topics of interest under its other programs—Future of Work; Race, Ethnicity and Immigration; Social Inequality."

**National Science Foundation**

**Science of Organizations**

**Deadline:** September 3, 2019, and February 3, 2020

"Organizations -- private and public, established and entrepreneurial, designed and emergent, formal and informal, profit and nonprofit -- are critical to the well-being of nations and their citizens. They are of crucial importance for producing goods and services, creating value, providing jobs, and achieving social goals. The Science of Organizations (SoO) program funds basic research that yields a scientific evidence base for improving the design and emergence, development and deployment, and management and ultimate effectiveness of organizations of all kinds."  

**EDUCATION**

**Brady Education Foundation Grant**

**Deadline:** August 1 and December 1, 2019 for stage 1 proposals

"Evaluate the effectiveness of programs designed to promote positive cognitive and/or achievement outcomes for children (birth through 18 years) from underserved groups and/or low-resourced communities (minority ethnic groups, low-income families)."

**LANGUAGE & AREA STUDIES**

**Daesan Foundation**

**Translation, Research, and Publication**

**Deadline:** August 30, 2019

"The DAESAN FOUNDATION, which promotes the "enrichment of Korean culture" and "globalization of Korean Culture" supports the translation, research, and publication of Korean works to foster the globalization of Korean culture and to advance cultural exchange. The Foundation's Translation Grant selects, translates and
researches quality literary works worthy enough to globalize Korean literature, publishing these works at prestigious publishing companies of the target languages and promoting the globalization of Korean literature through the distribution of these works.”

**Association for Asian Studies First Book Subvention Program**
**Deadline:** September 1, 2019, and March 1, 2020

"The AAS administers a program for AAS-member authors who require subventions to ensure publication of their first books. Funded through the AAS Development Fund, AAS First Book Subventions will be awarded on a competitive basis to AAS-member first-time book authors who have already secured provisional contracts from established academic presses. Subventions will be paid directly to the press.”

**Wilson Center George F. Kennan Fellowship**
**Deadline:** September 1, 2019, and March 1, 2020

"The Kennan Institute seeks fellowship applicants from diverse, policy-oriented sectors such as media, business, local government, law, civil society, and academia to examine important political, social, economic, cultural, and historical issues in Russia, Ukraine, and the region. Among the aims of the new fellowships are to build bridges between traditional academia and the policy world, as well as to maintain and increase collaboration among researchers from Russia, Ukraine, the U.S., and around the globe." Open to non-citizens.

**STEM**

**(SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS)**

**American Association for the Advancement of Science Early Career Award for Public Engagement with Science**
**Deadline:** August 1, 2019

"The AAAS Early Career Award for Public Engagement with Science, established in 2010, recognizes early-career scientists and engineers who demonstrate excellence in their contribution to public engagement with science activities.”

**American Foundation for Suicide Prevention Focus Grants**
**Deadline:** August 1, 2019, for letters of inquiry, December 7 for full application for invited proposals

“The Focus Grant for Short-Term Risk is open to innovative, potentially high-yield proposals that focus on short-term risk for suicide.”

**National Institutes of Health R13, U13 Conference Grants and Conference Cooperative Agreements**
**Deadline:** August 12 and December 12, 2019

Permission to submit deadline: 6 weeks in advance

"The NIH ICs each have different scientific missions, as well as program goals and initiatives that evolve over time. In order to promote the most efficient use of NIH funds towards meeting the mission and program goals of the ICs, each conference grant application is required to contain a permission-to-submit letter from one of the participating ICs (see IC Contact and Special Interests website). Applicants are urged to initiate contact well in advance of the chosen application receipt date and no later than 6 weeks before that date. Applicants should inquire about IC-specific program priorities and policies in regards to conference grants. Please note that agreement to accept an application does not guarantee funding.”

**National Science Foundation Cognitive Neuroscience**
**Deadline:** August 13, 2019, and February 11, 2020

“Cognitive Neuroscience Program seeks highly innovative proposals aimed at advancing a rigorous understanding of the neural mechanisms of human cognition. Central research topics for consideration by the program include attention, learning, memory, decision-making, language, social cognition, and emotions. Proposals with
animal models are appropriate only if they include a comparative element with human subjects. Proposals focused on behavioral, clinical or molecular mechanisms will not be considered for this program."

Sarah de Coizart Perpetual Charitable Trust Grants
Deadline: August 15, 2019
This private funder supports "Environment and species conservation and blindness-related services and research. Additional discretionary grants may be made to specific organizations and program areas that were of interest to Mrs. de Coizart. "Annual distributions from the Trust are managed by JP Morgan Chase Bank and Mr. Richard Bartholomae."

American Psychiatric Association Kempf Fund Award
Deadline: August 15, 2019
"The Kempf Fund Award for Research Development in Psychobiological Psychiatry, established in 1988, recognizes a senior researcher who has made a significant contribution to research on the causes and treatment of schizophrenia as both a researcher and a mentor. An award is also made to support the career development of a young research psychiatrist working in a mentor-trainee relationship with the award winner. Funded by the estate of Dorothy C. Kempf."

Engineering Information Foundation Women in Engineering Grant Program
Deadline: August 31, 2019, and February 28, 2020
"The foundation is looking to fund Programs designed to improve the retention rate of undergraduate women in engineering. These may cover such diverse areas as classroom, climate, learning behaviors, classroom pedagogies and academic and social support programs. It is expected that the programs will examine their impact on SMET achievement."

National Science Foundation Mathematical Biology
Deadline: September 5, 2019
"The Mathematical Biology Program supports research in areas of applied and computational mathematics with relevance to the biological sciences. Successful proposals are mathematically innovative and address challenging problems of interest to members of the biological community. Some projects of interest to the Mathematical Biology Program may include development of mathematical concepts and tools traditionally seen in other disciplinary programs within the Division of Mathematical Sciences, e.g., topology, probability, statistics, computational mathematics, etc. To receive appropriate and timely review, such proposals should be submitted directly to the relevant disciplinary program that has the earliest deadline, with other program(s) selected as secondary. Note that proposals that use established mathematical and computational tools to address problems in the biological sciences are typically not appropriate for submission to DMS."

Deadline Reminders
Below are grants that are, or are expected to be, due in the next six months. For a list of grant deadlines for the whole year, please see our Grants Calendar on the Barnard website.
